

The Rock Family Song

Script for performance in 3D assembly (30th May)

(All enter)

(All singing together)

**We are all solid members of the rock family tree
We're metamorphic, igneous or sedimentary**

(Hae Min) I'm granite - (So Eun) I'm agate - (Lea) I'm sandstone - (Yejin) I'm soapstone

(Spoken in unison, each person standing at their name) We're (Stephanie) flint, (Annie) gneiss and (Grace) gypsum and (Emma) quartzite

(Shi Jie) I'm limestone - (Carmen) I'm pumice - (Alfie) and I'm mica-schist

(Spoken in unison, each person standing at their name)

We're (Walther) porphyry, (Taek Ho) obsidian and (Matthias) marble.

(All singing together)

**We are all different branches of the same family tree
But we're also the members of the rock family.**

(All four rocks in unison)

Hey! Don't forget us!

(Stephanie) I'm quartz - (Annie) I'm slate - (Grace) I'm shale - (Emma) I'm hornblende

(Spoken in unison, each person standing at their name)

We're (Walther) cinnabar, (Taek Ho) hematite, (Matthias) talc

(All singing together)

**Metamorphic, igneous or sedimentary
We are all solid members of the rock family.**

(All crouch down and freeze. Matteo enters)

(Matteo)

Which of you are the metamorphic rocks?

(All four metamorphic rocks together)

We are!

(Quincy) I'm slate - (Tommy) I'm gneiss - (Ryan) I'm schist - (Brian) I'm quartzite
(All four metamorphic rocks together speak, as they mime their metamorphosis)

We were formed when other rocks were squeezed and changed by pressure in the earth.

(Walther, standing up)

Which of you are the igneous rocks?

(Both igneous rocks together)

We are!

(Taek Ho) I'm granite - (Matthias) I'm basalt

(Both igneous rocks speak together as they mime their formation)

We are two of the igneous rocks.

We were formed when molten rock solidified.

(Matteo)

And how about the sedimentary rocks?

(All three sedimentary rocks together)

We are sedimentary rocks!

(Shi Jie) limestone - (Carmen) sandstone – (Alfie) shale

(All three sedimentary rocks together speak, as they mime their metamorphosis)

We were formed when rocks were broken down by weathering and deposited in layers in the rivers, lakes and ocean.

(each performing their own dance, then freezing)

Hae Min, So Eun, Lea, Yejin: Metamorphic, igneous or sedimentary...

Shi Jie, Carmen, Alfie: Metamorphic, igneous or sedimentary...

Walther, Taek Ho, Matthias: Metamorphic, igneous or sedimentary...

Stephanie, Annie, Grace, Emma: Metamorphic, igneous or sedimentary...

Quincy, Tommy, Ryan, Brian: Metamorphic, igneous or sedimentary...

(All singing together, slowing down)

We are all so the members of the rock...fa-mi-lyyyyyyyyyyy.

(All bow. Applause)
